AFDX Monitor

An AFDX® test tool for monitoring of AFDX data

Reach your target within minutes

Fast, easy and efficient

AFDX® is a registered trademark of Airbus
Reach your target within minutes!

decoded clear view for BITE or

decoded clear view for SID
RAW message for defragmented SAP data

Value calculation for the marked Bytes
An Overview of the AFDX Monitor

- By means of the AFDX Suite, your notebook / PC will become the AFDX test system.
- Purchasing expensive AFDX hardware will no longer be necessary.
- No installation and no access to your computer’s internal hard drive will be necessary.
- Very short training periods are required owing to easy, intuitive operation.
- Instructions and support provided by experienced employees on-site as required.
- Passing on the ADFX Suite is possible with a simple USB stick. The operating system and the AFDX Suite has been preinstalled on the USB stick.
- No specialised knowledge is required in order to interpret the AFDX data.
- Clear text displaying of the AFDX data for BITE, SID and SNMP.
- A quick overview of the AFDX systems is ensured.
- The documentation of all test data is possible.
- Competent and fast support is provided.
- Employees’ many years of experience produce efficiency.
- We will support you – whenever you need us.

Test, Analyse and Log Your AFDX Systems – Quickly, Easily and Efficiently.

Talk to us! We would be glad to take the time to provide you with more information.
Upon your request, we would be glad to provide you with test versions of the AFDX Suite. Student versions with the full scope of services are likewise available.

Test us out.

Call us and set up an appointment today.

The AFDX Suite has been developed in cooperation with Airbus.
